

Customer Identification Form

Federal Communications Commission rules designed to protect the privacy of your telephone account information require that we identify customers as being authorized on the account. To do so, we will ask a specific question to which you have previously provided us the answer. Please select one of the following identification questions and provide the answer for each person authorized on your account:

1. What are the last four digits of your social security number?
2. What is your internet password?
3. In what town or city were you born?

The table has been populated with information available in our records. If you want to change your identification answer, replace the answer with a response to one of the three questions listed above.

Also, these new rules allow us to discuss account information *only* with the person(s) authorized on the account. You may wish to add others such as a spouse or family member to your account. If so, please complete the following:
